DETAILED ACTION

The amendment and response filed on 9/14/2009 has been entered and overcomes the rejections to the claims.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 92-108, non-elected without traverse, have been cancelled.

Allowable Subject Matter

1. Claims 52-91 and 109-115 are allowed.
2. The following is an examiner's statement of reasons for allowance: Regarding independent claim 52, the prior art of record neither shows nor suggest a flash lamp comprised of, in part, the metallic connection part is melted onto an inner surface of the first opening at the first end of the first tubular body part, the metallic connection part contains aluminum, and the first opening of the first tubular body part is closed by the metallic connection part, along with the rest of the limitations of the claim.

Due to their dependency, claims 53-91 and 109-115 are necessarily allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
